

Letter FROM YOUR Editor

APRIL 2009 ADVANCED

Dear readers,

Trees are budding, birds are singing, and we are celebrating the arrival of springtime in 2009! Life and vitality surround us again in the freshness of new beginnings. April brings the Easter holiday with its celebration of life triumphant over death, a most appropriate theme for this time of the year. Life is worth celebrating!

The warmer weather lures us outdoors. April sees some of us more involved with outdoor sports and others preparing to make gardens. I love using garden herbs for cooking, and trying fresh flavors in the kitchen. Do you ever try new and different foods? Our food article this month may inspire you!

Knowing that you have opportunities to be involved with many different activities, I want to commend you for taking time this April to study English with us. As always, this issue has been prepared with careful attention, making it an excellent learning tool for you. Find a place outdoors and study outside for a change this month.

Yours sincerely,

Angela Peterson

Happy Easter!

Easter is a holiday when many people celebrate the resurrection of Jesus. The holiday is observed on the first Sunday following the first full moon in springtime.

Easter customs include eating a special meal with family, receiving candy and even decorating eggs.
