### **1<sup>st</sup> verse**

I need your help, please help me

I need your help, please help me

I need your help, please help me, yes I am...

I'm a friend in need, so please help me.

### **2<sup>nd</sup> verse**

Oh my friend, yes, I will help you,

Oh my friend, yes, I will help you,

You're friend and I can see

That you're a friend in need

Of my help, yes, I will help you.

### **Bridge**

I'm so glad we are friends,

May our friendship never end.

Friends for life, friends forever,

When we're in need, we help each other

For life... forever, we will help each other.

Oh, my friend, I know we can make it...together!

Oh, my friend, I know we can make it!

Oh, my friend, I know we can make it...together!

I love you...I love you too....
